## SCHOOL REPORT.

The Superintending School Committee respectfully presents the following report, of the Schools in the Town of Washington, for the year ending March 11, 1879.

### DISTRICT NO. 1.

The first two terms in this District were taught by Miss Etta West of Claremont. Miss West possessed in a remarkable degree those qualities of mind and heart, which are the essential requisites of a successful teacher. She had tact, perseverance, energy and dispatch; With these she COULD NOT fail. Both terms of her school were eminently successful. Her school-room was always neat; her pupils cheerful, obedient and polite. Her singing class which embraced the entire school elicited much praise, and was highly entertaining and gratifying to the visitors of the school. Especial progress was made by a class of beginners in Geography.

The third term was taught by Mr. George Dickey from Dartmouth College. The school was somewhat broken up by the sickness of the pupils; and some absented themselves from school for reasons not known to your committee. Mr. Dickey's literary qualifications were good, but he did not seem to have that happy faculty of securing the hearty cooperation of the parents, and the respect and esteem of his pupils, that was possessed by his predecessor.

#### DISTRICT NO. 2.

The first term of this school was taught by Miss Julia M. Wood of Washington. This was her first attempt to teach, and fair progress was made. The second term was taught by Miss Katie L. Crain of Washington. Miss Crain labored with zeal for the good of her pupils, and good progress was made.

#### DISTRICT NO. 3.

The first term of this school was under the instruction of Miss Abbie D. Newman of Washington, and the second term was taught by Miss Laurella Newman of Washington. Both terms of this school were conducted in a thorough'y systematic manner, and great pains were taken to teach the RUDIMENTS of the several sciences studied. The closing examinations were very gratifying to all who were present.

#### DISTRICT NO. 4.

The first term of this school was taught by Miss Fannie G. French of Hillsborough. Miss French is a lady of fine scholarly attainments and labored hard for the prosperity of the school.

Good order prevailed, and fair progress was made in the studies pursued.

The second term was taught by Miss H. M. Eaton of Bradford. Miss Eaton is a first class teacher. Her gentle ways, genial and sunny disposition won for her the respect and love of her pupils, and secured excellent discipline, seemingly without an effort.

## DISTRICT NO. 5.

The first two terms of this school were taught by Miss Jennie M. Carr. Miss Carr is a teacher of rare qualifications, and seems admirably adapted to impart instructions by a process pleasing to the pupils and gratifying to the patrons of the school. Her closing examinations furnished conclusive evidence that her efforts were successful.

The third term was under the instruction of Mr. Mark M. Hadley. Your committee was unable to visit this school on account of sickness; but very favorable reports of the school have come from members of the district, and his large experience, and well-earned popularity as a teacher, leave no room to doubt that his school was highly successful.

## DISTRICT NO. 6.

The two terms of this district were under the instruction of Miss Olive C. Muzzey of Newbury. Miss Muzzey is one of the most successful of teachers. She exercises over her pupils a motherly care and solicitude; and is a most faithful guardian of their morals, as well as of their mental acquirements. The proficiency of her YOUNGER pupils in the miscellaneous questions to which the attention of the little ones is generally called, your committee has not seen surpassed. The closing examinations showed conclusively that THOROUGHNESS was the prevailing idea in all her school work. Fortunate will be that district which secures her services in the future!

## DISTRICT NO. 7.

The two terms of this school were taught by Miss Jennie L. Heath of Marlow. This was Miss Heath's first school, and she displayed a fair amount of talent as a teacher. With a little improvement in DISCIPLINE she will become a successful and useful teacher.

## DISTRICT NO. 8.

The single term in this district was taught by Miss Ella N. Proctor of Washington.

The school at the commencement seemed to be in a prosperous condition and the teacher did all in her power to make the school a success. Your committee was prevented from visiting the school at its close, by sickness.

#### DISTRICT NO. 9.

There was but one term in this district taught by Miss Alma C. Hadley of Hillsborough. This was her first attempt at teaching.

But she showed UNCOMMON ability for one of her years, and left a pleasing impression upon the patrons of the school as well as your committee. She is hereby recommended to prudential committees who are in want of a competent teacher in a district where the labor is not too severe for one so young.

#### DISTRICT NO. 10.

But one term in this district, taught by Miss Lillie J. Harriman of Hillsborough. This was her first school, and she labored with patience and perseverance for the good of her pupils. Good progress was made.

### STATISTICAL REPORT.

#### DISTRICT NO. 1.

	1st term.	2nd.	3d.
Whole number of different scholars,	38.	29.	36.
Average attendance during the term,	34.	28.	23.
Length of school in weeks,	7.	8.	12.

#### DISTRICT NO. 2.

Whole number of different scholars,	9.	6.
Average attendance during the term,	8 9-10.	5 41.46
Length of school in weeks,	6.	9.

#### DISTRICT NO. 3.

Whole number of different scholars,	8.	9.
Average attendance during the term,	7 11-15.	8 1-2.
Length of school in weeks,	6.	6.

## DISTRICT NO. 4.

	1st term.	2nd.	3d
Whole number of different scholars,	9.	15.	
Average attendance during the term,	9.	14.	
Length of school in weeks,	6.	5 3-5.	

## DISTRICT NO. 5.

Whole number of different scholars,	no report.	26 - 28 - 28
Average attendance during the term,	" "	21 - 22 - 2
Length of school in weeks,	8.	6. 12.

## DISTRICT NO. 6.

Whole number of different scholars,	11.	13.
Average attendance during the term,	10 9-10.	12 49-52.
Length of school in weeks,	8.	10 1-2.

## DISTRICT NO. 7.

Whole number of different scholars,	4.	6.
Average attendance during the term,	4.	5 23-25.
Length of school in weeks,	6.	10.

## DISTRICT NO. 8.

Whole number of different scholars,	12.	
Average attendance during the term,	11 68-75.	
Length of school in weeks,	15.	

## DISTRICT NO. 9.

Whole number of different scholars,	no report.	11
Average attendance during the term,	" "	11
Length of school in weeks,	11.	

## DISTRICT NO. 10.

Whole number of different scholars,	6.

"    male    "	2.	
"    female   "	13.	
Average wages of male teachers per month,	no report,	32
"    female   "	"    "	18

### GENERAL REMARKS.

It is gratifying to all who take a lively interest in our schools to know that another school year has closed successfully. Most of the teachers employed the past year, have had considerable experience in the business of teaching. Ten of the fifteen teachers have had one or more terms experience and their valuable labors the past year, commends them to the favorable notice of prudential committees in the future. It is generally counted as wisdom on the part of employers to secure the services of those workmen who have PREVIOUSLY labored for them with fidelity. Are TEACHERS an exception to this rule? A word to the wise is sufficient. Friends of education! Repair your school-houses, so that your children may occupy them with comfort, and not be obliged to roast one side while the other freezes! See that they are amply supplied with Blackboards, Maps, Charts, and a good reliable Terrestrial Globe.

This done; hang up a few pictures and well chosen mottoes, to please the eye and cultivate a love of the beautiful. Thus supplied, beautified and adorned, the school-room will cease to be a prison, and become a sacred place, where our children will love to resort and learn their lessons where the sharp edge of discipline will be tempered by the teachers sunny smile.

Most Respectfully Submitted,

A. P. HOWE, S. S. Committee.

Washington, Feb. 23th, 1879.
